

The Dermaroller treatment for...

ACNE SCARRING,

SKIN REJUV-E-NATION &

STRETCH MARKS...

Professional help is now available in your area!

An ideal cosmetic treatment produces an enhanced, younger and healthier natural appearance without surgery or the need for a significant recovery period. Mulberry House Clinic are pleased to be an Authorised Genuine Dermaroller™ Clinic, and are able to provide the new and exciting Genuine Dermaroller™ Therapy, a procedure that produces Natural Skin Regeneration and Scar Repair resulting in smoother, brighter, healthier, and younger-looking skin.

Dermaroller Therapy can significantly improve the appearance of acne scars, ageing and sun-damaged skin, facial and décolleté lines & wrinkles and stretch marks, and is suitable for all skin types.

It is fast becoming one of the most talked about procedures, recently featuring in Grazia and Hello! Magazine where it was stated that Brad Pitt and Angelina Jolie were reported to have had Dermaroller™ Therapy in LA!

It works by producing thousands of microscopic columns in the dermis of the skin, which stimulate the skin to regenerate and repair itself naturally and safely. The appearance immediately afterwards is of a mild to moderate sunburn. This normally settles the same day leaving only a little residual

redness the following day. The effects of treatment take up to 6 weeks as new collagen is formed, new skin cells are generated and the blood supply is enhanced - improvement will continue over the following months providing a gradual and long-lasting enhancement. Normally a series of up to 3 Genuine Dermaroller™ procedures is recommended, with approximately 6 weeks in between.

Cosmetic Doctor John Tanqueray says "Genuine Dermaroller™ is enabling us to provide significant results for patients who couldn't or wouldn't be treated with fractional or resurfacing lasers because of their skin tone, the resulting downtime or cost. For our clients with scars, ageing or sun-damaged skin and stretch marks Genuine Dermaroller™ Therapy is comfortable, safe and effective, and is rapidly becoming a first-line treatment."

A Dermaroller treatment for the full face costs £300. For further information and appointments please telephone Mulberry House Clinic & Laser centre on: 01604 702630 or visit www.mulberryhouseclinic.co.uk
